AGRITECTURE
Agritecture Consulting

Founded in 2014, Agritecture Consulting (formerly Blue Planet Consulting) provides advisory services in the design, planning, implementation and operation of urban agriculture projects.

We offer our clients the tools, data, ideas, network, and expertise needed to ensure their success. We consult globally and are based in New York City.

Our Mission

Our mission is to empower impact-driven organizations to develop feasible urban farming operations, turning their business ideas into practical and sustainable realities.
